

IUCN World Conservation Congress 1-10 September 2016, Hawaii

Time to act for oceans in the 2030 Agenda: collaborative partnerships for SDG 14

3 September 2016, 17.00-19.00

Room 318A

Workshop ID 10249

How are governments, civil society, businesses and communities delivering on the oceans, coasts, and marine resources goal and targets of the 2030 Agenda? How are they addressing trade-offs between SDG 14 aspirations and other goals? What are the key elements of success at all levels that will make it possible to achieve progress towards the 2030 Agenda and in particular the goals and targets of SDG 14? Through an interactive and high-level dialogue, this workshop will generate innovative ideas and practical ways forward to achieve the Ocean Goal.

The objectives of this workshop are to:

- Boost the discussions around SDG-14 implementation and focus on strengthening cooperation and building partnerships in the lead up to the *High-Level UN Conference to Support the Implementation of Sustainable Development Goal 14*.
- Foster commitments from NGOs, governments and financial institutions towards the Conference and demonstrate tangible progress made so far on SDG-14 implementation.
- Identify champions and create formal and informal collaborations/partnerships that will support these commitments going forward.
- Influence the next IUCN quadrennial's objectives and will also be used to inform governments, NGOs and donor institutions about practical ways to implement SDG-14 implementation.

The final output will be a policy paper recommending concrete actions to deliver on the Ocean SDG and the broader 2030 Agenda. Recommendations will be voted on by participants and included in this paper.

Programme

Session 1: Introduction / setting the scene by Moderator (5 minutes)

- **Moderator:** Mr. Alexander Müller, Member, Germany Council for Sustainable Development
- **Key Messages:**
 - Set the stage for a dialogue and messages to emerge from the high level speakers, the panel, and the interactive audience experience;
 - Explore key questions, gaps and opportunities, surrounding implementation the 2030 Agenda for oceans implementation;
 - Status – how well prepared are we as a global community to achieve the 2030 Agenda for oceans, coasts, and marine resources?
 - Role and approach to engaging different perspectives (and knowledge systems) (e.g., civil society, business, government, and among different knowledge systems, e.g., local, indigenous, science, policy).

Session 2: Opening key messages from High Level Panel (25 minutes)

The high-level panel will deliver short, inspirational 'key note' messages on their aspirations and expectations on the 2030 Agenda, more particularly on what is needed to ensure successful implementation of the Ocean Goal (SDG 14).

Collectively, the panel will bring global and regional perspectives on the policy pathways and key actions that need to take place in order to lead to a successful UN Ocean Conference in 2017.

High-Level Panel

- Mr. Jake Rice, Department of Oceans and Fisheries, Canada
Co-chair IPBES Global Oceans Assessment
- Mr. François Martel, Secretary General, Pacific Islands Development Forum
- Mr. Spencer Thomas, Ambassador and Special Envoy for Multilateral Environmental Agreements, Ministry of Foreign Affairs, Environment and Trade- Grenada (TBC)

Session 3: Panel discussion on SDG-14 implementation (35 min)

Implementation Panel

- Mrs. Susan White, Superintendent US Pacific National Monuments
- Mr. Willie Kostka, Executive Director of Micronesia Conservation Trust
- Mrs. Vatosoa Rakotonirafy, MIHARI (Network of LMMAs in Madagascar) coordinator

- Prof Rashid Sumaila, Professor and Director of the Fisheries Economics Research Unit at UBC Fisheries Centre (TBC)
- Mr. John Tanzer, Director, Global Ocean Practice, WWF-International

Key themes discussed shall include:

- Implementing the SDG-14 through enabling broad-based partnerships and multi-stakeholder collaboration in the wider 2030 Agenda perspective.
- Innovative ways of financing the implementation of SDG-14.
- The role of regional ocean governance – how can local and national engagement in regional initiatives support and enable implementation of the 2030 Agenda for oceans
- Capacity building: what's needed and how can it foster 2030 Agenda implementation for oceans, coasts, and marine resources?
- How can partnerships and community-based networks support SDG-14: key elements for success.
- Looking at SDG-14 in the broader context of the UN 2030 Agenda: linkages with other SDG targets including SDG-1 on food security and SDG-17 on partnerships.
- Role of the civil society in supporting SDG-14 implementation.

Session 4: Interactive voting session with the audience (20 min)

This interactive session – where the audience will be invited to take part in a live poll (questions will be posted on a screen and people will be able to share their opinion and cast their votes through their laptops or smartphones) – will allow the audience to participate in the discussion and highlight what the key recommendations for SDG 14 implementation are in their views. The results will be shared and discussed with the panellists in the next session.

Session 5: Moderated discussion based on poll results (30 min)

Session 6: Wrap-up by moderator (5 min)
